Life is an adventure. Ours started in 1817.

Founded in 1817 in Hornberg in the Black Forest, Duravit AG is today a leading international manufacturer of designer bathrooms. The company is active in more than 130 countries worldwide and stands for innovation in the fields of signature design, comfort-enhancing technology and premium quality. In cooperation with high-profile international designers, such as Philippe Starck, EOOS, Phoenix Design, sieger design, Kurt Merki Jr., Christian Werner, Matteo Thun and Cecilie Manz, the company develops unique bathrooms that enhance quality of life for users on a sustained basis. Duravit's product portfolio comprises sanitary ceramics, bathroom furniture, bathtubs and shower trays, wellness systems, shower-toilets, tap fittings and accessories as well as installation systems.

Brand Values

DESIGN

Design that surrounds us affects how we feel. Design is emotion. That's why our philosophy is that design needs to adapt to people's needs in terms of aesthetics, functionality and sustainability in production and use.

We achieve this at a global level by working with an international network of designers, ranging from renowned greats such as Philippe Starck and Cecilie Manz through to young talents including Bertrand Lejoly and Kurt Merki Jr.

By combining their ideas with our inhouse expertise, a diverse range of designs and innovative approaches are produced that are as unique and stylish as they are exclusive.

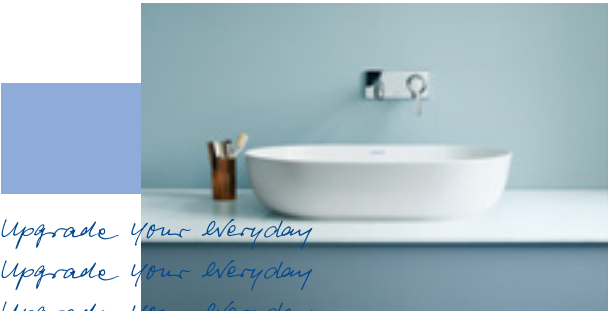

RESPONSIBILITY

We acknowledge our responsibility for our environment and the people within it, for today's and future generations.

For that reason we treat our resources with respect and create a workingenvironment for our employees in which everyone feels comfortable.

In order to accommodate the different living situations and lifestyles of our users, we develop ideas and finished products that are especially functional, durable, and sustainable - not least in terms of their use of water.

EXCELLENCE

Realizing sophisticated products requires a high degree of technical expertise combined with manual craftsmanship.

We put this into practice at our development centers and production plants at more than ten locations around the world, where our employees develop and manufacture our products with the aid of state-of-the-art technologies, artisanal skills, and close attention to detail.

This aspiration to achieve the last word in excellence is deeply rooted in the company. It is evident in all our processes, from the development to the service team, and in more than 200 years of our company's history.

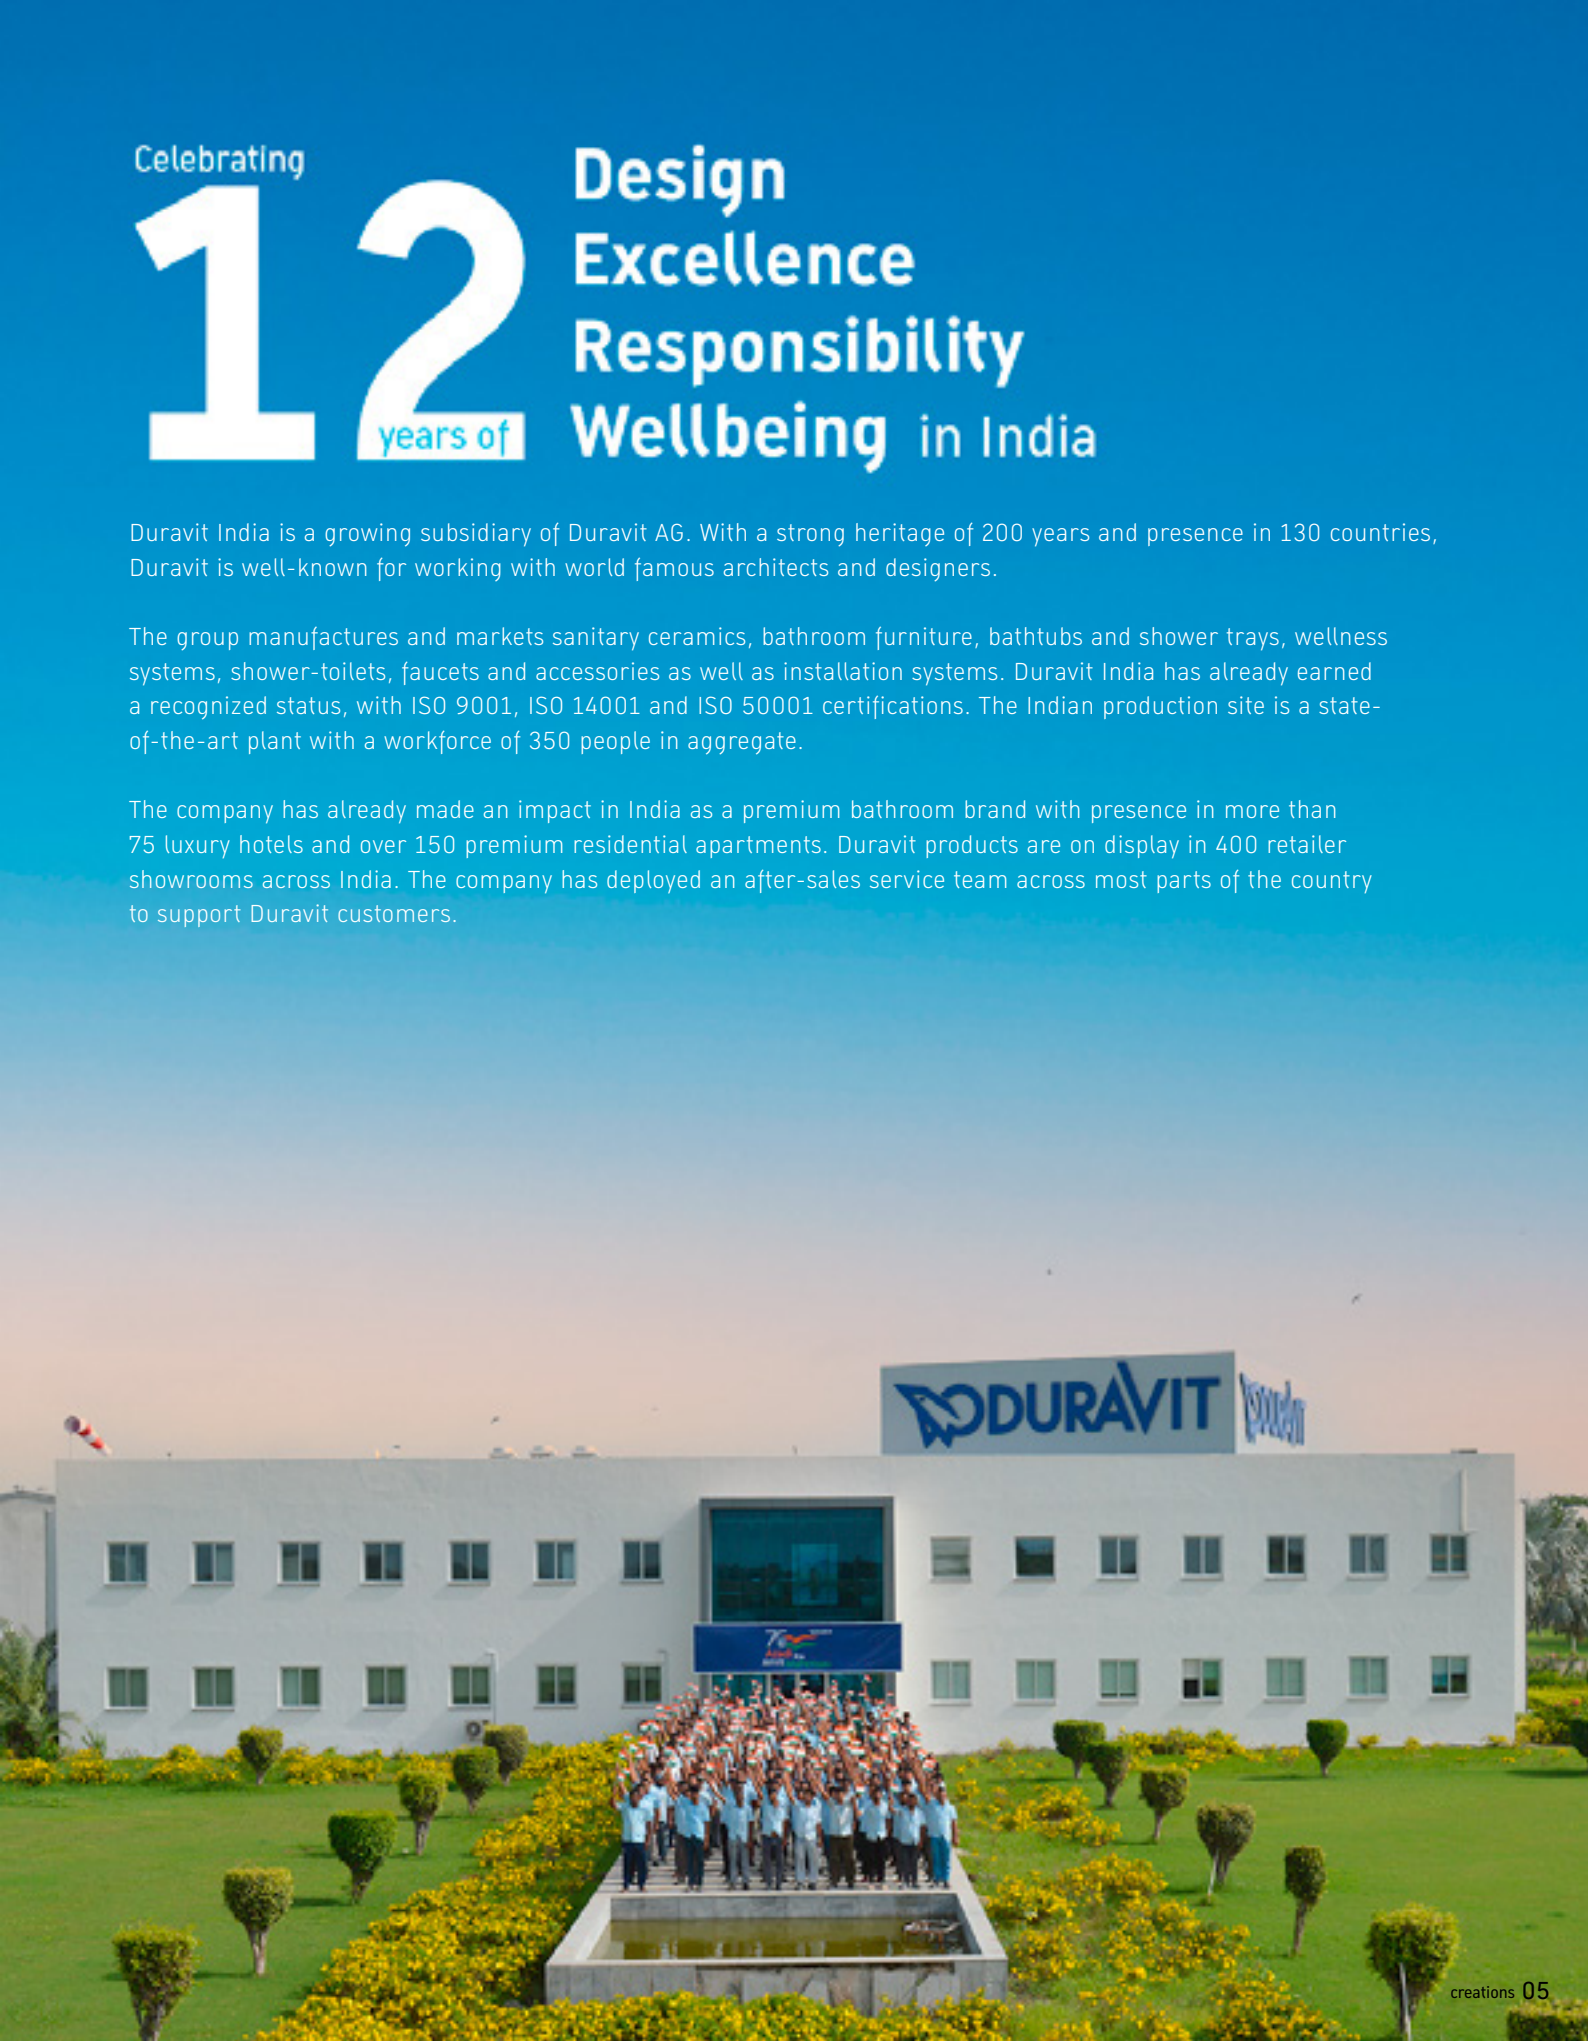

WELLBEING

We see the bathroom as a living area where you recharge your batteries, ready yourself for the day in the morning, and round it off in the evening.

Our products and their natural charm create rooms that offer moments of peace, relaxation, and quality of life, creating a sense of constancy in a world of ever-changing aspirations and needs.

We strive to make every bathroom an entirely personal and unique feel-good place, while of course taking account of the highest standards of hygiene and functionality.

Celebrating
12
years of
Design Excellence Responsibility Wellbeing in India

Duravit India is a growing subsidiary of Duravit AG. With a strong heritage of 200 years and presence in 130 countries, Duravit is well-known for working with world famous architects and designers.

The group manufactures and markets sanitary ceramics, bathroom furniture, bathtubs and shower trays, wellness systems, shower-toilets, faucets and accessories as well as installation systems. Duravit India has already earned a recognized status, with ISO 9001, ISO 14001 and ISO 50001 certifications. The Indian production site is a state-of-the-art plant with a workforce of 350 people in aggregate.

The company has already made an impact in India as a premium bathroom brand with presence in more than 75 luxury hotels and over 150 premium residential apartments. Duravit products are on display in 400 retailer showrooms across India. The company has deployed an after-sales service team across most parts of the country to support Duravit customers.

The Duravit designers.

Unique designer network, sustainable signature design.

World of Duravit. References.

The blue Duravit lettering with the wood grouse is recognised around the world. It can be found on ceramics, furniture and bathtubs that meet the highest standards of quality, technology and design. The masterpieces that we're presenting here have one thing in common: the blue wood grouse.

D-Neo

D-Neo introduces a new attitude towards life in the bathroom. The range is impressive with its straight-line and its geometric shapes and it allows enough room for your personality to shine through. The individual elements of the complete bathroom range fit into any ambience - whether compact or spacious.

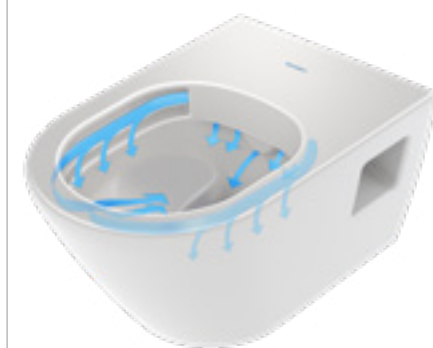

Design by Bertrand Lejoly

Washbowl #237140

2 Toilet wall-mounted Duravit Rimless®, 370 x 540 mm #257809

Dura Style

DuraStyle: New freedom in the bathroom. Individuality is important in everyday living. However, individuality does not mean making an impression with all means. Simply an ambience which reflects itself, gives your personality air to breathe and space to do your own thing. Such as DuraStyle: Designed by Matteo Thun & Antonio Rodriguez, the range of bathrooms is revealed as deliberately discreet – and blends harmoniously into practically any ambience for this very same reason. Two surface versions – light and dark – open up further options for individual bathroom design. Simply incomparable in its formal simplicity, DuraStyle succeeds with ease in underlining the personality of the bathroom user.

DuraStyle

The innovative impression given continues with the shapes of the toilet and bidet: The flat lid/seat combination, available with and without a soft closing mechanism, is eye-catching. Toilet and bidet are available in wall-mounted and floor-standing versions, supplemented by a one/two-piece toilet. The wall-mounted toilets, available with a 48, 54 or 62 cm projection and with concealed or conventional fixation, are suitable for practically any domain of use and almost any architectural condition.

Starck 3

The original knows no equal – and Starck 3 remains the measure of all things when it comes to design, variety and price. Offering better value for money than ever before – for a real Philippe Starck. With more than 50 models or 64 variants, Starck 3 is probably the most extensive bathroom range ever, suitable for the widest range of different uses, application areas and architectural settings, whether in the public, semipublic or private sphere.

Cape Cod

Washbowl
480 mm, # 232848

With his Cape Cod bathroom range, Philippe Starck has reinvented the bathroom, removing the barriers between nature and the indoors. Nature becomes a permanent part of the bathroom, a place for rejuvenation and refreshment with aesthetically appealing materials and forms. Ceramic washbowls with distinctively thin edges, a perfectly coordinated range of bathtubs, and bathroom furniture that can be combined on an individual basis and positioned as desired within the room.

Washbowl 430 mm, #232843

Washbowl
430 mm, #232843

DuraSquare

Washbowl, 600 x 345 mm,
235560

Straight-lined and precise, yet also soft and organic: the DuraSquare bathroom series effortlessly combines such contradictions to create a new aesthetic. The furniture washbasin with metal console in Chrome or Black Matt creates plenty of practical shelf space. The furniture washbasin with a width of 500 mm is also new. A perfect match in terms of form: the square toilets of the Vero Air bathroom series.

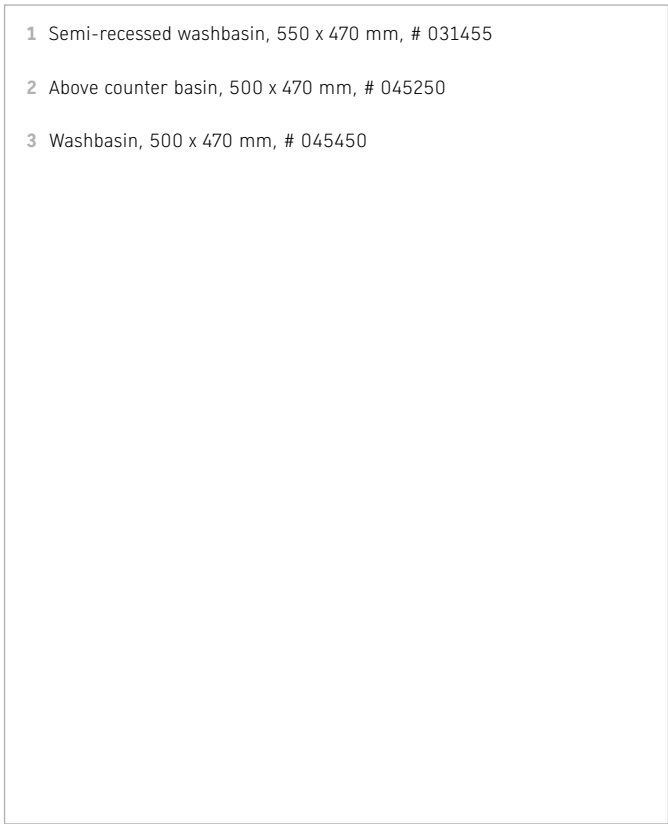

1 Washbasin, above counter basin grounded, 600 x 470 mm, #235460
Single lever basin mixer M, 175 mm, # C11020

Metal console floor-standing, 665 x 451 mm, # 003101

Vero

Not without reason is the Vero ceramic series a modern design classic that has now been a Duravit bestseller for more than a decade: its consistently rectangular design is not only elegant but also timeless.

Duravit No.1

Style shouldn't end at the bathroom door. Not even if you're just starting off, in your first apartment or shared apartment. With the Duravit No.1 complete bathroom series in-house design, Duravit has created a high-quality upgrade for every day. In this bathroom, you can recharge your batteries, prepare for the day's big challenges, relax, or spend time with loved ones.

D-Code

With variants and solutions for all conceivable room layouts, D-Code is the range for absolutely any situation – the key to an attractive, affordable design. The series is visually understated – a rectangle with rounded corners, the quintessential washbasin. The discreet forms do not impose themselves but blend into their surroundings. That’s what makes D-Code so timelessly modern – another feature of good design.

- 4 Toilet wall-mounted with Durafix DuraStyle, 370 x 540 mm, # 2552390037

Naturally clean and fresh. Nothing is as thorough, as hygienic, as natural and as refreshing as cleansing with water. The Duravit under-shower toilets are equipped with adjustable nozzels that clean the user with a soft water jet after using the toilet.

Light & Mirror

The mirror variant with ambient light gives out pleasant, indirect light from all four sides, and the wall-wash effect creates an extraordinary, atmospheric lighting effect within the room. Because this variant does not directly illuminate the viewer, additional bathroom lighting such as downlights is required. Optimal mirror heating ensures that the surface of the mirror does not steam up.

2 Mirror with lighting

Good Version

700 x 34 mm, # LM 7851
900 x 34 mm, # LM 7853

Better Version

700 x 34 mm, # LM 7861
900 x 34 mm, # LM 7863

Best Version

700 x 34 mm, # LM 7871
900 x 34 mm, # LM 7873

Of all the elements in a bathroom, the mirror is probably the one that gets looked at the most. That being so, our options for edging light at the side or top or indirect ambient light show the mirror in its best light, upgrading it to an attractive design element in both private and commercial bathrooms. Light output of over 300 lux, a pleasant light color of 4,000 kelvin.

1 4 sided ambient light

Good Version

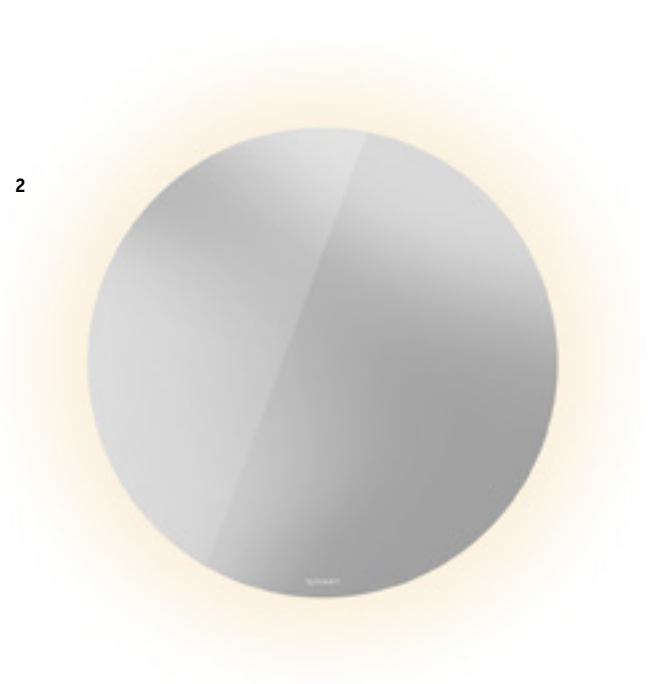

600 x 33 mm, # LM 7805
800 x 33 mm, # LM 7806
1000 x 33 mm, # LM 7807

Duravit Rimless®

With the Rimless technology, the open design of the toilet rim enables an innovative and powerful flush that ensures perfect and hygienic flushing results, even with volumes as small as 4.5 litres. Thanks to an open, easily accessible rim area, the bowl is particularly easy to keep clean, reducing cleaning times considerably. Toilet models in the DuraStyle and Starck 3 series are available in the Duravit Rimless® option.

Hygienic flushing without splashing, no matter what cistern

Quick and easy to clean

Ceramic distributor

Optimized design of the flushing rim and bowl geometry for dynamic water flow and optimum surface flushing

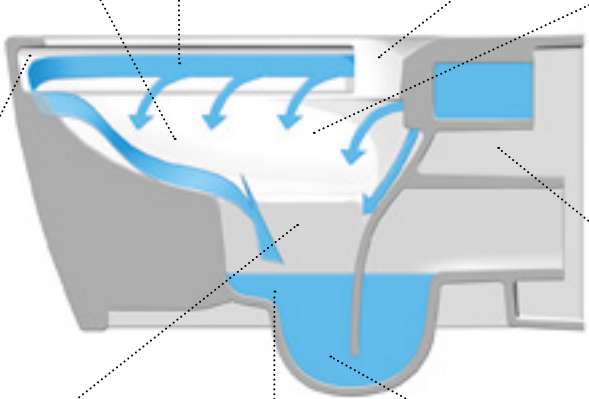

Perfect flushing of the inner surface, outstanding flushing results even with small water volumes

Compatible with different cisterns

Hygienic: fully-glazed, extremely smooth ceramics prevent the formation of germs and the build-up of residue

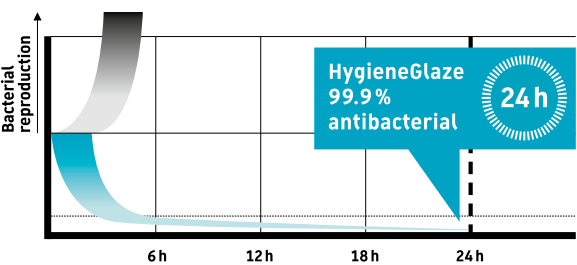

Thanks to the intelligent inner geometry, the water level is 16 mm above the specially formed ceramic

Less residue accumulation thanks to the large area flushed with water

HygieneGlaze

HygieneGlaze sets a new standard in hygiene. After six hours, 90% of bacteria are inhibited. After 24 hours, this percentage rises to 99.9%. Baked into the ceramic, the antibacterial glaze extends from the interior to the rim of the toilet or urinal, and is thus effective in the areas particularly susceptible to the accumulation of bacteria.

Duravit is a member of the German Sustainable Building Council, DGNB. The DGNB system describes and assesses the sustainability of buildings and houses. The assessment is a comprehensive one looking at the complete life cycle of the building.

Duravit is member of USGBC (U.S. Green Building Council), a board that is committed to a sustainable future through efficient and energy-saving buildings. One measure is the LEED program for green construction. LEED certified buildings save resources and have a positive impact on the health of occupants, while promoting renewable energy.

Duravit is a member of the Institut Bauen und Umwelt (Institute for Construction and the Environment), an initiative by manufacturers of construction products to meet the demand for more sustainability in the construction sector. It offers a united public image of Ökolabeltype III Environmental Product Declarations (EPDs) in compliance with ISO and EN standards.

IBU has awarded Duravit EPDs for its sanitary ceramic, sanitary acrylic and DuraSolid® product groups. The EPD attests to the environmental compatibility of the product and the company's responsibility for sustainable construction.

The Unified Water Label (EWL) is a voluntary system by European bathroom manufacturers supported by Duravit and all major brands. The UWL's online database and product labels ensure transparency by clearly marking the water consumption and energy usage of bathroom products.

Duravit is a member of WaterSense, a partnership program by the US Environmental Protection Agency (EPA). It is aimed primarily at consumers wishing to reduce their water consumption. Products and services with the WaterSense label save at least 20% without compromising on performance or reliability.

Duravit bathroom furniture production has the PEFC quality seal. PEFC (Programme for the Endorsement of Forest Certification) is the largest institution for ensuring sustainable forest management through an independent certification system. Wood and wood products with the PEFC seal come from demonstrably ecological, economical and socially-sustainable forest management.

Duravit is certified according to ISO 9001 (quality management), ISO 14001 (environmental management) and ISO 50001 (energy management). All management processes are subject to a continuous improvement process and meet internationally recognized requirements.
